System Maintenance:

Internal Audit Solution:

Internal Audits are an important tool for your Management System. They help ensure that procedures are implemented accurately and consistently, they provide key data about the Management System to management, and they discover opportunities for improvement.

Therefore the training of your Auditors and the way you manage your Internal Audit program should not be an afterthought. Buyer's Audits are very important in the field of

Textile & Garments, because on the basis of audit orders are confirmed. To avoid failure in the audit proper implementation of the system is necessary. To make it sure we also perform internal audits before Buyers Audits and prepare companies for it.

Training Solution:

We provide Training services for all the major standards prevailing in the world. These standards range from Quality Management, Environmental Management, Health & Safety Standards, Food Safety Standard and other Industry Standards, Compliance audits & All Buyers Code of Conduct.
